

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	5 July 2026
Team ID	
Project Name	Book A Doctor
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Problem Statement:

Difficulty in finding the right doctor based on specialization, location, or availability.

Manual or phone-based appointment scheduling that is time-consuming and prone to errors.

Problem Definition:

- **Identify the core issue:** Patients struggle to find and book doctors easily.
- **Define the scope:** Online platform for booking consultations (in-person or virtual).

Idea Generation (Divergent Thinking)

Encourage free-flowing ideas without judgment:

- **User Features:** Patient registration, doctor search, appointment booking, notifications.
- **Doctor Features:** Profile management, availability scheduling, consultation history.
- **Admin Features:** Manage users, doctors, appointments, payments, analytics.
- **Advanced Ideas:** AI-based doctor recommendations, telemedicine integration, prescription uploads

Categorization

Group ideas into logical buckets:

- **Core MVP:** Login/registration, doctor search, appointment booking, notifications.
- **Enhancements:** Payments, reviews, filters, analytics dashboard.
- **Future Innovations:** AI recommendations, health record integration.

Action Plan

- **Phase 1 (MVP):** Patient login, doctor search, appointment booking, notifications.
- **Phase 2:** Payments, reviews, filters.
- **Phase 3:** Analytics dashboard, AI-based recommendations, telemedicine.
