Customer Problem Statement Template:

Problem Statement:

1. Difficulty in Finding the Right Doctor
2. Limited Access to Doctor Information

Defining Problem Statement:

1. Difficulty in Finding the Right Doctor:

Patients often face challenges in identifying suitable doctors based on specialization, location, or availability. This lack of transparency leads to delays in care, misaligned consultations, and frustration when patients cannot easily match their health needs with the right medical professional.

2. Limited Access to Doctor Information:

Patients rarely have access to detailed doctor profiles, including qualifications, experience, and patient reviews. This information gap makes it difficult to make informed decisions about which doctor to consult.

Challenges Without Online Doctor Appointment Booking

1. Time-Consuming Process

Patients must call or physically visit clinics to schedule appointments.

Long waiting times and repeated calls are common, especially in busy hospitals.

2. Uncertainty in Availability

Patients often don't know which doctors are available at a given time.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A patient	A patient	It takes too long	Manual/phone-based scheduling with no real-time updates	Frustrated and anxious
PS-2	A patient	Find the right doctor	I can't easily compare options	Lack of transparent profiles and availability	Confused and uncertain
